

## Prostate Cancer Research

---

### **125 Iodine prostate brachytherapy: outcome from the first 100 consecutive patients and selection strategies incorporating urodynamics.**

Henderson, A., Cahill, D., Laing, R. W., & Langley, S. E. M. (2002). *BJU International*, 90(6), 567–572.

### **Prebiopsy 3Tesla MRI and targeted biopsy of the index prostate cancer: correlation with robotassisted radical prostatectomy.**

Patel, U., Dasgupta, P., Challacombe, B., Cahill, D., Brown, C., Patel, R., & Kirby, R. (2017). *BJU International*, 119(1), 82–90.

### **Does bodycoil magneticresonance imaging have a role in the preoperative staging of patients with clinically localized prostate cancer?**

Allen, D. J., Hindley, R., Clovis, S., O'Donnell, P., Cahill, D., Rottenberg, G., & Popert, R. (2004). *BJU International*, 94(4), 534–538.

### **Laparoscopic radical prostatectomy: the initial UK series.**

Eden, C. G., Cahill, D., Vass, J. A., Adams, T. H., & Dauleh, M. I. (2002). *BJU International*, 90(9), 876–882.

### **Freedom from Androgen Deprivation and radiotherapy therapy after upfront minimally invasive surgery for high-risk prostate cancer.**

Servian Vives, P., Patel, A., Eldred-Evans, D., Cahill, D., Brown, C., Challacombe, B., & Winkler, M. (2017). *The Journal of Urology*, 197(4S), e718–e718.

### **Can Nurse-Led Shared Medical Appointments Replace One-to-One Consultations for Erectile Dysfunction Post-Robotic-Assisted Laparoscopic Prostatectomy? A Quality Improvement Study in Survivorship.**

Allchorne, P., Briggs, K., Fleure, L., Kinsella, N., Cahill, D., & Green, J. S. A. (2020). *Urologic Nursing*, 40(2).

### **Highintensity focused ultrasound for treating prostate cancer.**

Acher, P. L., Hodgson, D. J., Murphy, D. G., & Cahill, D. J. (2007). *BJU International*, 99(1), 28–32.

### **Transition from open to robotic-assisted radical prostatectomy.**

LouieJohnsun, M., Neill, M., & Cahill, D. (2008). *BJU International*, 102(8), 1045–1046.

### **Laparoscopic radical prostatectomy outcome data: how should surgeon's performance be reported? A retrospective learning curve analysis of two surgeons.**

Mason, S., Van Hemelrijck, M., Chandra, A., Brown, C., & Cahill, D. (2016).

*Ecancermedalscience*, 10.

### **Demonstration of erectile management techniques to men scheduled for radical prostatectomy reduces longterm regret: a comparative cohort study.**

Kinsella, J., Acher, P., Ashfield, A., Chatterton, K., Dasgupta, P., Cahill, D., Popert, R., & O'Brien, T. (2012). *BJU International*, 109(2), 254–258.

### **Identification of the retrotrigonal layer as a key anatomical landmark during robotically assisted radical prostatectomy.**

Raychaudhuri, B., & Cahill, D. (2006). *BJU International*, 98(6), 1330.

### **How the MartiniKlinik handled prostate surgery during COVID19.**

Cahill, D. (2020) *BJU International*.

### **Health professional awareness of treatment-related bone loss in prostate cancer.**

Burbridge, S., Thillai, K., Tang, C., Garcia-Imhof, A., Drudge-Coates, L., Rudman, S. M., Kinsella, J., Cahill, D., Kooiman, G., & Hughes, S. (2011). *Journal of Clinical Oncology*, 29(15\_suppl), e15099–e15099.

### **Complications of laparoscopic radical prostatectomy. A prospective reference, not a forgotten secret.**

Raychaudhuri, B., Hodgson, D. & Cahill, D., (2006) *BJU International*, 97.

### **24 hour stay post laparoscopic radical prostatectomy: is it safe?**

Challacombe, B., Kendall, J., Elhage, O., Murphy, D., & Cahill, D. (2009). *BJU International*, 103, 5.

### **Prostate brachytherapy; A prospective analysis of urological symptoms**

Cahill, D., Langley, S., Ismail, A., & Laing, R. (2001). *British Journal of Cancer*, 85, 16.

### **Impact of learning curve in laparoscopic radical prostatectomy on margin status: prospective study of first 100 procedures performed by one surgeon.**

Baumert, H., Fromont, G., Adorno Rosa, J., Cahill, D., Cathelineau, X., & Vallancien, G. (2004). *Journal of Endourology*, 18(2), 173–176.

### **Real world evidence: a quantitative and qualitative glance at participant feedback from a free-response survey investigating experiences of a structured exercise intervention for men with prostate cancer.**

Fox, L., Cahill, F., Burgess, C., Peat, N., Rudman, S., Kinsella, J., Cahill, D., George, G., Santaolalla, A., & Van Hemelrijck, M. (2017). *BioMed Research International*.

## Prostate Cancer Research

---

### **Laparoscopic radical prostatectomy in the management of gleason 8 -10 clinically localised prostate cancer.**

Cahill, D., Rozet, F., Cathelineau, X., Baumert, H., & Vallancien, G. (2003). *European Urology Supplements*, 2(1), 39. [https://doi.org/10.1016/S1569-9056\(03\)80155-0](https://doi.org/10.1016/S1569-9056(03)80155-0)

### **Freedom from androgen deprivation and radiotherapy after upfront minimally invasive surgery for high-risk prostate cancer.**

Vives, P. S., Patel, A., Eldred-Evans, D., Cahill, D., Brown, C., Challacombe, B., & Winkler, M. (2017). *The Journal of Urology*, 4(197), e718.

### **Barriers and facilitators to physical activity in men with prostate cancer: a qualitative and quantitative systematic review.**

Fox, L., Wiseman, T., Cahill, D., Beyer, K., Peat, N., Rammant, E., & Van Hemelrijck, M. (2019). *Psycho oncology*, 28(12), 2270–2285.

### **Repeat PSA -a valid and safe method for minimising negative prostatic biopsy.**

Singh, R., Cahill, D., Hindley, R., & O'Brien, T. (2004). *Prostate Cancer and Prostatic Diseases*, 7(4).

### **The use of validated scoring systems to improve objective assessment of comorbid risk in men with localised prostate cancer.**

Singh, R., Cahill, D., Popert, R., Beaney, R., Wierzbicki, A., & O'Brien, T. (2004). *European Urology Supplements*, 3(2), 48. [https://doi.org/10.1016/S1569-9056\(04\)90184-4](https://doi.org/10.1016/S1569-9056(04)90184-4)

### **Metformin and longevity (METAL): a window of opportunity study investigating the biological effects of metformin in localised prostate cancer.**

Crawley, D., Chandra, A., Loda, M., Gillett, C., Cathcart, P., Challacombe, B., Cook, G., Cahill, D., Santa Olalla, A., & Cahill, F. (2017). *BMC Cancer*, 17(1), 1–12.

### **24-hour laparoscopic radical prostatectomy: the standard of care?**

Challacombe, B., Kendall, J., Murphy, D., & Cahill, D. (2008). *BJU International*, 101, 9–10.

### **An ex vivo platform for skill acquisition in vesicourethral anastomosis using the Da Vinci® robotic system.**

Kommu, S., Billia, M., Jonathan, M., Chang, R., Khan, S., Popert, R., Cahill, D., Challacombe, B., & Dasgupta, P. (2012). *BJU International*, 110, 155–156.

### **Transperitoneal or extraperitoneal approach for laparoscopic radical prostatectomy: a false debate over a real challenge**

Cathelineau, X., Cahill, D., Widmer, H., Rozet, F., Baumert, H., & Vallancien, G. (2004). *The Journal of Urology*, 171(2), 714–716

### **Are you now a good surgeon? T2 positive margin status as a quality outcome measure following radical prostatectomy.**

Domani, A., Van Hemelrijck, M., Wulaningsih, W., Crawley, D., & Cahill, D. (2017). *World Journal of Urology*, 35(1), 35–43.

### **Brief behavioural intervention, delivered as standard care, to support physical activity engagement in men with prostate cancer: a pilot study protocol.**

Fox, L., Wiseman, T., Cahill, D., Fleure, L., Kinsella, J., & Van Hemelrijck, M. (2018). *BMJ Open Sport & Exercise Medicine*, 4(1).

### **Causes of death in men with prostate cancer: an analysis of 50 000 men from the Thames Cancer Registry**

Chowdhury, S., Robinson, D., Cahill, D., RodriguezVida, A., Holmberg, L., & Møller, H. (2013). *BJU International*, 112(2), 182–189.

### **Highintensity focused ultrasound for localized prostate cancer: initial experience with a 2year followup.**

Challacombe, B. J., Murphy, D. G., Zakri, R., & Cahill, D. J. (2009). *BJU International*, 104(2), 200–204.

### **Lipid profiles and prostate cancer severity in a hospital-based cohort.**

Van Hemelrijck, M., O'Brien, T., Wierzbicki, A., Cahill, D., & Holmberg, L. (2012). *International Journal of Clinical Practice*, 66, 3–4.

### **An update on localised prostate cancer.**

Hodgson, D., Acher, P., & Cahill, D. (2007). *International Journal of Clinical Practice*, 61(2), 315–319.

### **Laparoscopic radical prostatectomy (LRP)–a training model (Results of the first 100 procedures performed by a single surgeon).**

Hodgson, D., Raychaudhuri, B., & Cahill, D. (2006) *BJU International*, 97.

### **What Can We Tell Patients Newly Diagnosed with Gleason 8 or 9 Disease? A UK-Population Study.**

Yamamoto, H., Ooi, J., Challacombe, B., Cahill, D., Chandra, A., & Popert, R. (2011). *Urology*, 78(3), S286.

## Prostate Cancer Research

---

**Beware of snapshot PROM prostate cancer studies without baseline adjustment: Insights from a prospective UK comparison study.**

Good, D., Challacombe, B., Cahill, D., & McNeill, S. A. (2020). *European Urology Open Science*, 19, e1767–e1768.

**Tertiary Pattern 5 Is an Indicator of Favorable Prognosis in Gleason 8 and 9 Disease.**

Yamamoto, H., Ooi, J., Chandra, A., Cahill, D., Challacombe, B., & Popert, R. (2011) *Urology*, 78(3), S342.

**Metformin and longevity (METAL): A window of opportunity study investigating the biological effects of metformin in localised prostate cancer.**

Crawley, D., Chandra, A., Loda, M., Gillett, C., Cathcart, P., Challacombe, B., Cook, G., Cahill, D., Cahill, F., & Santa Olalla, A. (2016). *Annals of Oncology*, 27, vi261.

**High intensity focused ultrasound for localised prostate cancer with three year follow-up and disappointing oncological outcomes**

Murphy, D., Challacombe, B., Zakri, R., & Cahill, D. (2009) *BJU International*, 103.

**Laparoscopic radical prostatectomy: follow-up after 1000 cases.**

Cahill, D., Widmer, H., Rozet, F., Baumer, H., Cathelineau, X., & Vallancien. (2003). *BJU International-Supplement*, 91.

**Laparoscopic radical prostatectomy: continence and oncological outcomes in 268 cases.**

Goonewardene, S. S., & Cahill, D. (2015). *Journal of Robotic Surgery*, 9(3), 267.

**Comparison of extraperitoneal and transperitoneal laparoscopic radical prostatectomy.**

Cahill, D., Renda, A., Rozet, F., Baumer, H., Cathelineau, X., & Vallancien, G. (2003). *BJU International-Supplement*, 91.

**Repeating the measurement of prostatespecific antigen in symptomatic men can avoid unnecessary prostatic biopsy.**

Singh, R., Cahill, D., Popert, R., & O'Brien, T. S. (2003) *BJU International*, 92(9), 932–935.

**Barriers and facilitators to physical activity in men with prostate cancer: a mixed methods systematic review**

Fox, L., Wiseman, T., Cahill, D., Beyer, K., Peat, N., Rammant, E., & Van Hemelrijck, M. (2019). *Quality of Life Research*, 28, S51–S51.
