

Robotic Radical Prostatectomy Research

Modification of robotic assisted laparoscopic radical prostatectomy to improve early continence.

Kumar, P., & Cahill, D. (2010). *European Urology Supplements*, 9(5), 507. [https://doi.org/10.1016/S1569-9056\(10\)61124-4](https://doi.org/10.1016/S1569-9056(10)61124-4)

Patients undergoing transperineal saturation prostate biopsy to assess for suitability of active surveillance are not at higher risk of complications if they proceed to radical prostatectomy.

Kinsella, J., Hemelrijck, M., Popert, R., Cahill, D., & Morris, S. (2012). *BJU International*, 109.

The Survivorship era: clinic-based follow-up.

Goonewardene, S., Douek, N., Brown, C., Cahill, D., Dasgupta, P., Brown, M., Challacombe, B., & Popert, R. (2015). *BJU International*, 115.

Association Between Preoperative Magnetic Resonance Imaging based Urethral Parameters and Continence Recovery Following Robot-assisted Radical Prostatectomy

Kim, L. H. C., Patel, A., Kinsella, N., Sharabiani, M. T. A., Ap Dafydd, D., & Cahill, D. (2020). *European Urology Focus*, 6(5), 1013–1020. <https://doi.org/10.1016/j.euf.2019.01.011>

Re: Transperitoneal or extraperitoneal approach for laparoscopic radical prostatectomy: a false debate over a real challenge.

Cathelineau, X., Cahill, D., Widmer, H., Rozet, F., Baumert, H., & Vallancien, G. (2004). *The Journal of Urology*, 172(4 Part 1), 1545.

Anaesthetic management for robotic-assisted laparoscopic prostatectomy: the first UK national survey of current practice.

Milliken, D., Lawrence, H., Brown, M., Cahill, D., Newhall, D., Barker, D., Ayyash, R., & Kasivisvanathan, R. (2020). *Journal of Robotic Surgery*, 1–7.

Laparoscopic Radical Prostatectomy. Kumar, P., & Cahill, D. (2011) in: Dasgupta, P. & Kirby, R.(eds) **ABC of Prostate Cancer**. West Sussex: Wiley-Blackwell, 29-32.

Anterior Retzius Sparing Technique for Robotic Assisted Radical Prostatectomy.

Noel*, J., Jallad, S., Liu, M., Kinsella, N., Kasivisvanathan, R., & Cahill, D. (2019). *The Journal of Urology*, 201(Supplement 4), e1120–e1121.

Open versus robot-assisted salvage radical prostatectomy: functional outcomes and complications of a multicentre series.

Gontero, P., Marra, G., Alessio, P., Oderda, M., Palazzetti, A., Pisano, F., Battaglia, A., Munegato, S., Callaris, G., & Frea, B. (2017) *Anticancer Research*, 37(4), 2144–2145.

Application of the 'Bordeaux technique' in robot-assisted radical prostatectomy improves early continence.

Withington, J., Henderson, A., & Cahill, D. (2010) *BJU International*, 106, 50–51.

A critical analysis of the learning curve and postlearning curve outcomes of two experience-and volume-matched surgeons for laparoscopic and robot-assisted radical prostatectomy.

Good, D. W., Stewart, G. D., Laird, A., Stolzenburg, J.-U., Cahill, D., & McNeill, S. A. (2015). *Journal of Endourology*, 29(8), 939–947.

Anterior Retzius Sparing: Step-by-step.

Lamb*, A., Lopez, F., Shah, T., & Cahill, D. (2020). *The Journal of Urology*, 203(Supplement 4), e1308–e1308.

Effect of a brief physical activity-based presentation by a former patient for men treated with radical prostatectomy for prostate cancer: a mixed methods pilot study.

Fox, L., Wiseman, T., Cahill, D., Fleure, L., Kinsella, J., Curtis, E., Peat, N., & Van Hemelrijck, M. (2021). *Supportive Care in Cancer*, 29(1), 145–154.

Robotic radical prostatectomy in younger men: successful outcomes from 236 cases.

Goonewardene, S., Douek, N., Brown, C., Cahill, D., Dasgupta, P., Brown, M., Popert, R., & Challacombe, B. (2015). *BJU International*, 115.

Group seminars are an effective and economic method of delivering patient information regarding radical prostatectomy and functional outcomes.

Janette, K., Ashfield, A., Elaine, H., Challacombe, B., Popert, R., & Cahill, D. (2012) *The Journal of Urology*, 187(4S), e282–e282.

Robotic surgery, skills and simulation: a technical sport.

Goonewardene, S. S., & Cahill, D. (2015). *Journal of Robotic Surgery*, 10(1), 85–86.

RARP allows for improved apical dissection in comparison to LRP: A retrospective analysis of 2 volume and experience matched surgeons.

Good, D. W., Stewart, G. D., Cahill, D., & McNeill, S. A. (2015). *European Urology Supplements*, 14(2), e189. [https://doi.org/10.1016/S1569-9056\(15\)60191-9](https://doi.org/10.1016/S1569-9056(15)60191-9)

Retzius-sparing versus standard robot-assisted radical prostatectomy: a comparative prospective study of nearly 500 patients.

Umari, P., Eden, C., Cahill, D., Rizzo, M., Eden, D., & Sooriakumaran, P. (2020). *The Journal of Urology*, 10–1097.

Robotic Radical Prostatectomy Research

PUKA study: A snapshot of radical prostatectomy practice in the UK.

Laird, A., Fowler, S., Cahill, D., Brewster, S. F., O'Brien, T., & McNeill, S. A. (2013). *European Urology Supplements*, 12(1), e298. [https://doi.org/10.1016/S1569-9056\(13\)60784-8](https://doi.org/10.1016/S1569-9056(13)60784-8)

Robotic radical prostatectomy- risk stratification and oncological outcomes from negative margins.

Goonewardene, S., Challacombe, B., Dasgupta, P., Popert, R., & Cahill, D. (2017). *European Urology Supplements*, 16(6), e2426. [https://doi.org/10.1016/S1569-9056\(17\)31562-2](https://doi.org/10.1016/S1569-9056(17)31562-2)

Reducing the time to continence after radical prostatectomy.

Kumar, P., Knight, O., Lindisfarne, E., Cahill, D., & Dasgupta, P. (2011) *BJU International*, 107(4), 525–526.

Spinal analgesia versus intravenous opioid for robot-assisted radical prostatectomy: A retrospective analysis of 200 cases.

Kim, L., Brammer, K., Jay, A., Kasivisvanathan, R., & Cahill, D. (2017). *European Urology Supplements*, 16(3), e1031–e1032. [https://doi.org/10.1016/S1569-9056\(17\)30652-8](https://doi.org/10.1016/S1569-9056(17)30652-8)

Oncological outcomes of robotic assisted radical prostatectomy after more than 5 years.

Billia, M., Kommu, S., Challacombe, B., Cahill, D., Chang, R., & Dasgupta, P. (2012). *BJU International*, 110.

Robotic Radical Prostatectomy and Urinary Continence: Posterior Reconstruction is Better.

Goonewardene, S., Goggins, A., Kinsella, J., & Cahill, D. (2016). *Clin Oncol*, 1, 1046.

Radical prostatectomy outcome data: Which parameters are representative and reliable to publish?

Mason, S., Van Hemelrijck, M., Cahill, D., & Brown, C. (2015). *BJU International*, 115, 22–23.

Early continence rates vary by surgical technique for urethrovesical anastomosis during robotic assisted radical prostatectomy.

Goggins, Á., Kinsella, J., Van Hemelrijck, M., & Cahill, D. (2015). *BJU International*, 115.

The Da Vinci Xi and robotic radical prostatectomy—an evolution in learning and technique.

Goonewardene, S. S., & Cahill, D. (2017) *Journal of Robotic Surgery*, 11(2), 111–113.

Contemporary practice and technique related outcomes for radical prostatectomy in the UK: a report of national outcomes.

Laird, A., Fowler, S., Good, D. W., Stewart, G. D., Srinivasan, V., Cahill, D., Brewster, S. F., McNeill, S. A., & (BAUS), B. A. of U. S. (2015). *BJU International*, 115(5), 753–763.

Robotic surgery, can we reduce costs?

Goldstraw, M., Bianchi, R., Challacombe, B., Popert, R., Dasgupta, P., & Cahill, D. (2013). *BJU International*, 111, 29.

Oncological outcomes of robotic-assisted radical prostatectomy after more than 5 years.

Billia, M., Elhage, O., Challacombe, B., Cahill, D., Popert, R., Holmes, K., Kirby, R. S., & Dasgupta, P. (2014). *World Journal of Urology*, 32(2), 413–418.

What is the role of Neurosafe in robotic radical prostatectomy?

Goonewardene, S. S., & Cahill, D. (2019). *Journal of Robotic Surgery*, 13(1), 187–188.

Robotic radical prostatectomy and the learning curve: experience over 10 years.

Goonewardene, S., Challacombe, B., Popert, R., Dasgupta, P., & Cahill, D. (2017). *BJU International*, 119, 103.

A retrospective cohort comparison study of the LRP and RARP learning curve.

Good, D., Stewart, G., Cahill, D., & McNeill, S. (2014) *BJU International*, 113.

Radical prostatectomy follow up in secondary care—how long is too long?

Kinsella, J. E., Duong, K., Santaolalla, A., Van Hemelrijck, M., Challacombe, B., Popert, R., & Cahill, D. (2013). *BJU International*, 111, 42–43.

Seven years of robot-assisted radical prostatectomy at Guy's Hospital.

Kumar, P., Ahmed, K., Cahill, D., Challacombe, B. J., Popert, R., & Dasgupta, P. (2011). *European Urology Supplements*, 10(8), 553. [https://doi.org/10.1016/S1569-9056\(11\)61382-1](https://doi.org/10.1016/S1569-9056(11)61382-1)

A workflow to improve the alignment of prostate imaging with whole-mount histopathology.

Yamamoto, H., Nir, D., Vyas, L., Chang, R. T., Popert, R., Cahill, D., Challacombe, B., Dasgupta, P., & Chandra, A. (2014) *Academic Radiology*, 21(8), 1009–1019.
